

REMARKS

I. Objection to Claims

Claim 13 stands objected to for insufficient antecedent basis in the language of the claim. By this amendment, claim 13 has been amended in accordance with the Examiner's suggestions. Accordingly, Applicant respectfully submits that the objection to the claim has been overcome.

II. Rejection under 35 U.S.C. § 112

Claims 15-17 stand rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention.

Claim 15 has been revised to be more definite as to the movement of the axle measurement unit lifting device. Also, claims 16 and 17 were slightly amended. It is believed that the amendments resolve the § 112 rejection and are in allowable condition.

III. Allowable Subject Matter

Applicant acknowledges with gratitude the indication that the subject matter of claims 1, 2, 4-11, 14 and 18 is allowable.

CONCLUSION
